REGULAR WEEKLY CLASS DESCRIPTIONS

**Drawing and Painting Studio** –Professional artists Lado Pochkhua and Leah Kohlenberg team up to help students create and develop an artistic series, directing students in skill-building in different mediums (as necessary), and connecting them to other artists and artistic periods that will help them develop their own voice.

**Acrylic Painting** – Think you can't paint? Learn otherwise in this all-levels painting class, with particular instruction for complete beginners. All classes will feature a demo of a specific subject – and the teacher will walk you through the steps to create a better painting than you can imagine.

**Watercolor Painting** – Walk through the drawing and painting of various watercolor projects. Requires a specific supply list. Most projects will take more than one class period – one to draw the painting, the second to paint it.

**Figure Drawing**– Learn how to draw figures in this class, for both experienced drawers and ambitious beginners. Each week, the teacher will walk you through drawing the figure, with special emphasis on measuring and focusing on different aspects of figure drawing each week.

**Soft Pastels** –Learn the basics of layering, color mixing and applying color effectively in this all-levels class. Requires a specific supply list.

**Learn to Draw and Paint (Asia and Australia)** – This all levels drawing and painting class is designed to offer techniques to students at all levels of instruction. You'll practice a drawing or painting demo done live with a teacher. Time zone is Saturday for Asia and Australia time zones, Friday night for US West Coast.
